Classroom Code of Academic Integrity

- **All assignments are to be original to this class.** Previously written papers may not be reused, in part or in whole.

- While collaboration is encouraged for the purpose of sharing ideas and critiquing one another's work, **copying, modifying, or otherwise adapting another student's work, in part or in whole, is cheating.**

- All assignments must be uploaded to the college's **plagiarism detection tool** (at Palomar, it's called SafeAssign).

- Papers not submitted to SafeAssign **will not be graded** and will be **marked down 10% per day late** (including weekend days) until the paper is submitted.

- I have **zero tolerance** for cheating in any form, and to any degree. Any paper that has been copied, plagiarized, re-submitted from a previously-written paper, written by someone else, or that in any way, shape, or form, violates the standards of academic integrity which this college adheres to, will receive a **0 on that assignment** (not an F) and may not be rewritten or re-submitted.

- I reserve the right to **report** instances of cheating to the English department and/or the college, depending on the seriousness of the violation.
